## Introduction

**ANBL**, the **Art Nobilitas Cryptocurrency**, (friendly called Nobilitas) has been conceived to be the reference international cryptocurrency, in the world of High Value Artworks, Gold and Platinum Deposited funds, Valuable Antique Jewels and Precious Stones Deposited fund as diamonds, emeralds and rubies.

It is issued in an amount of 1,000 million units, and it is based on an Underlying representing a fund of amounting to a total conferred certified value of 2,000 million USD 50% of which is represented by a fund of African Gold 22 – 22,5 K in average ingots while each ingot weights 100 grams.

## **Good Reasons to invest purchasing Art Nobilitas:**

Each early subscriber of a package of 5,000 ANBL units at the “protected price” of 1.40 USD per unit, will receive a “Protected Gold Certificate” in his name.

After the full placement of the total units on the market, owners of each PGC can ask in any moment to convert his ANBL units in the deposited gold ingots by the ratio of one 100 gr ingot 22 K versus 5,000 ANBL units whatever could be the current ANBL market price.

- Due to its certified underlying value, each Art Nobilitas has a great potential of quick increasing value and greater stability (smaller fluctuations) than the classic coins.
- Art Nobilitas can be used at short term as a collateral guarantee or as quick Letter of Credit in international goods trading and guaranteed payment. International World Capital Ltd, the company that owns the commercial rights of Art Nobilitas, will act as guarantor in those kinds of international transactions.
- Art Nobilitas has also been created to support Charities and Special Projects: Art Nobilitas for Africa created to support less developed countries; a special emission will be dedicated to the industrial development of African countries guaranteeing to ANBL owners the 30% net profit of all created companies.
- Art Nobilitas can be used at short term as currency parking between a “sell” decision and a “buy” one on an exchange platform.

- Art Nobilitas can also be used as a heritage fund to protect the family members or keeping safe great amounts of cash deposits and made it available in any part of the world.

People can also use Art Nobilitas to transfer money to family members without high commission costs.

- Art Nobilitas can also being borrowed to be used as collateral in estate operations.
- Art Nobilitas can be used also as middle term investment coupled “in bundle” with financial and estate assets.

Art Nobilitas supports also Contemporary and Antique Art Collectors to give a real tangible market value to their artworks; the attributed value to a Collection as underlying will be decided solely by the Art Nobilitas Evaluation Committee which will issue a specific certificate of recognized value.

Art Nobilitas will also, once be requested by the underlying providers, permit the selling of a part of its underlying when the market price has reached at least the 300% of the face value of the specific Artwork or Other underlying. It means that initial subscribers and miners can purchase valuable artworks at 33% of its real value.

Art Nobilitas underlying can include some artworks that owners would like to sell; the price will be expressed in USD at half price of the certified value, and it must be paid in ANBL considering the daily quotation of the cryptocurrency. The obvious increasing of its value will reduce the real paid price of the artwork.

## **How does Art Nobilitas work?**

The cryptocurrency market was established and presented by Bitcoin making it a pioneer in this business.

The introduction of Bitcoin opened a completely new arena which was flexible, quick yet secure.

Bitcoin was just the beginning of a vision that will change the way we do business.

Nobilitas has its own innovative approach towards the cryptocurrency market being the only crypto currency having an underlying.

## **Proof of History (Proof of Stake)**

Art Nobilitas coin is one of the coins in the industry that uses Proof of History principle to create the most adaptable transactional structure for the financial sector.

It is a cryptocurrency based on Solana blockchain structure and uses Phantom wallet to guarantee the investors safety.

This technology advancement will help to make Art Nobilitas coin stable and gain acceptance world-wide as one of the leading cryptocurrencies.
